

A portable generator is shown in a dark, industrial setting. The generator is a light-colored unit with a fuel tank on the left side and a control panel on the right. The control panel features several electrical outlets and a control knob. A power cord is plugged into one of the outlets. The generator is mounted on a frame with wheels. The background is a dark, textured wall, possibly made of brick or concrete. The overall lighting is dim, with a strong light source from the left, creating a dramatic effect. A large, semi-transparent dark shape is overlaid on the right side of the image, and a solid green shape is at the bottom left corner.
